## CITY OF ROSEMEAD

### TENTATIVE TRACT MAP INFORMATION SHEET

#### DESCRIPTION:

A **Tentative Tract Map** is required by law to divide property into five (5) legal lots or more for certain projects that because of their nature or operation may affect neighboring properties. In order to ensure compatibility with neighboring properties, The Planning Commission will review such items as building placement, traffic, relationship with surrounding properties, and the operation of the use. The planning Commission may require certain conditions that ensure that the proposed use will not cause an adverse impact to the neighborhood.

#### PROCESS:

1. **Pre-Application meeting (s):** A meeting with the Planning Department is strongly encouraged PRIOR to submitting an application. Such a meeting will help provide you with information in terms of requirements, standards, and fees and will help you in preparing your application.
2. **Development Review Committee (DRC):** The DRC is an advisory committee composed of City Staff and other agencies which review projects for compliance with existing codes and standards. The DRC does not have formal decision making authority. Prior to the public hearing, a DRC meeting is scheduled. After the DRC meeting, you will be advised of the conditions of approval and the City staff's recommendation on your project. There is an opportunity at this stage of the process to discuss areas of concern or differences and resolve them prior to Planning Commission and City Council Action.
3. **Planning Commission:** A public hearing before the Planning Commission is conducted. At the hearing, City staff will present a report on your application. The conditions of approval and recommendation to the Planning Commission will be those discussed with you previously. Members of the public will be invited to make comments on your project. Decisions of the Planning Commission are final unless appealed to the City Council.

**CITY OF ROSEMEAD

## CITY OF ROSEMEAD TENTATIVE TRACT MAP CHECKLIST

The following information is to be shown on all maps submitted as part of an application for a Tentative Tract Map:

- 1. Tentative Tract number with letters and numerals not less than one-half (½) inch in height, in bold face type.
- 2. Name, address, and telephone number of the record owner and subdivider of the land.
- 3. Name, address, and telephone number, and license number of the Registered Civil Engineer or Surveyor who prepared the map.
- 4. A revision box to indicate revisions made to maps previously submitted.
- 5. Sufficient legal description to define the boundary of the subdivision.
- 6. Boundaries of the subdivision with suitable descriptions to readily locate the property.
- 7. Date of preparation, north arrow, and scale of the map.
- 8. Tract numbers of adjacent subdivisions including approved tentative maps, and information sufficient to show their relationship to the proposed subdivision (i.e. lot pattern, improvements, streets, buildings, etc).
- 9. Existing and proposed land uses within a 100' radius of the subject property.
- 10. Existing topography of the site and within a 100' radius. Existing contours at 2 foot intervals if the existing ground is less than 10% and 5 foot intervals if the ground slope is 10% or greater. Existing contour lines should be shown as dashed or screened lines.
- 11. Location, width, and flow lines of all water courses and the outline of any area subject to flooding. Methods for accommodating storm water and drainage. Setbacks from flood control facilities as designated by Los Angeles County Flood Control. If adequate information cannot be provided on the map, the map shall be accompanied by supplemental information as required by the City to clearly describe the accommodation of storm water and drainage.
- 12. Location, width, and purpose of all existing and proposed easements for utilities, drainage, and other purposes shown by dashed lines.
- 13. Location and outline to scale of all existing buildings. Identify buildings to be removed.

- 14. Location (including distances from centerline to property) width and grade of all existing and proposed streets or highways or other right- of-way; ultimate right-of-way dimensions; and cross section of each.
- 15. The location and size of existing and proposed sanitary sewer, water mains and storm drains. Provide elevations and slopes of proposed sewer and storm drains and the distance and direction to existing facilities if they are not adjacent to subject property.
- 16. Lot information, including : dimensions; finished pad elevation, net square feet of each lot. Each lot shall be numbered with the highest number lot circled.
- 17. Boundaries of existing or proposed public areas (i.e. parks, trails, open space areas, etc.) within or adjacent to the subdivision. Each area shall be labeled and show the approximate acreage to the nearest one-tenth acre.
- 18. Location and extent of proposed grading with pad elevation and size of usable pad area. Shade all slopes 3:1 or steeper. Delineate all retaining walls.
- 19. Geological fault lines and hazardous zones as designated by any applicable geotechnical report for the subject property.
- 20. Type and location of existing trees with a trunk diameter of 9.5 inches or greater. Oak trees of four (4) inches or greater in diameter shall in all cases be shown.
- 21. Location of all existing fire hydrants within 500 feet of the front property line.
- 22. A statement of the proposals for sewage disposal, water supply, electric service, gas service, telephone, cable television, and other utilities and services including school district(s) which serve the property.
- 23. If the project is to be phased, show the proposed phases and their sequence of development.
- 24. A vicinity map showing the location of the subdivision.
