

NEIGHBORHOOD COYOTE PROGRAM

April 2023

MONTHLY
REPORT

CITY OF ROSEMEAD

MONTH AT GLANCE

During the month of April, the Neighborhood Coyote Program continued to document reports and share relevant information to residents who reported coyote activity in their neighborhoods.

Coyotes can become habituated as we allow them to be comfortable entering our yards and leaving readily available food sources. It is important to haze coyotes whenever you spot them entering the yards and driveways. Hazing tactics should not be used if a coyote is way out in the left field. Scaring off a coyote should be reserved for when a coyote has come close to you or your property. It is not recommended that you haze coyotes when they are simply walking in the street as they can also habituate to "hazing" tactics.

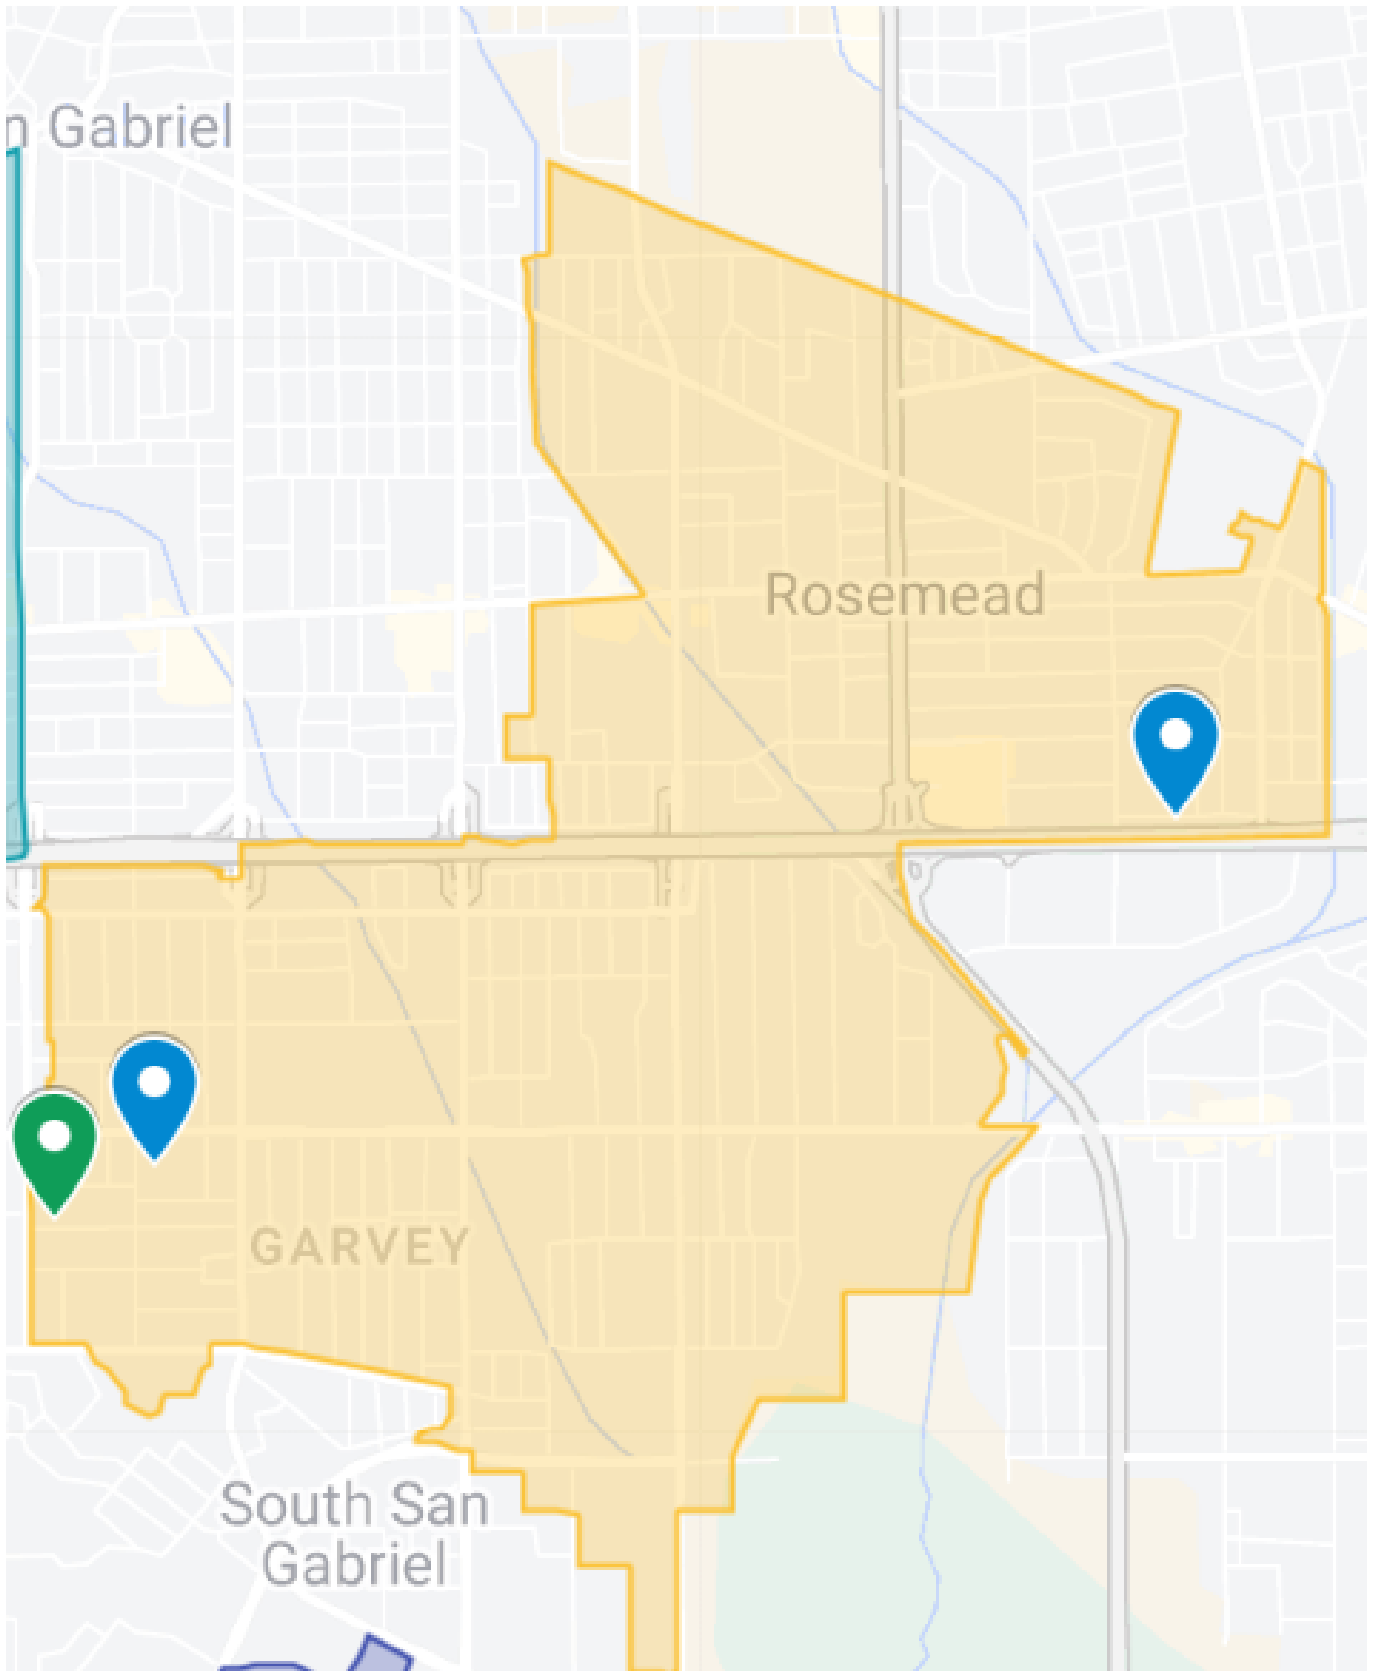

REPORT TOTALS

<p>2 reports</p>	<p>LEVEL 1 Coyote heard and/or seen; Coyote resting in public space</p>
<p>1 reports</p>	<p>LEVEL 2 Coyote seen resting in public area with humans present; Coyote entered yard or home with or without pets present</p>

NEIGHBORHOOD COYOTE PROGRAM

The Neighborhood Coyote Program serves as an avenue to address, educate, and report coyote interactions as well as safety issues caused by coyotes within the San Gabriel Valley. Through education and resourcing, we want to ensure the safety of residents and pets. The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety. The Neighborhood Coyote Program provides the following services:
