San Gabriel Valley Council of Governments

# NEIGHBORHOOD COYOTE PROGRAM

The Neighborhood Coyote Program serves as an avenue to address, educate, and report coyote interactions as well as safety issues caused by coyotes within the San Gabriel Valley. Through education and resourcing, we want to ensure the safety of residents and pets. The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides various methods to report coyote encounters as well as tips and information to promote coyote safety.

The Neighborhood Coyote Program provides the following services:

- Hotline Access
- Reporting Tools
- Referrals to Resources
- Pet Safety Planning
- Crisis Intervention
- Workshops and Training

## **MONTH AT GLANCE**

During the month of June, the Neighborhood Coyote Program continued to document reports and share relevant information to residents who reported coyote activity in their neighborhoods. Our coyote social media campaign gained further traction with posts relating to pupping season and coyote myths on Twitter, Facebook, Instagram, and NextDoor. In June, our NextDoor posts had 8,000 impressions and 45 engagements from our 10 cities, all of which were positive. We also participated in a Wildlife Watch meeting with the CA Department of Fish and Wildlife, and are developing new resources for local businesses as the region continues to reopen. We look forward to scheduling an event with the City in the following months!

# MONTHLY TOTALS AND RESPONSE LEVELS

Within the City of Rosemead, there were 7 reports of coyote interactions for the month of June. Three reports were classified as Response Level 1. Response Level 1 includes hearing or seeing coyotes. Another 3 reports were classified as Response Level 2. Response Level 2 includes coyotes entering a yard with or without pets present. Of the reports made, 1 was classified as Response Level 3. Response Level 3 includes a coyote entering a yard and injuring or killing an attended or unattended pet. There were 11 coyotes reportedly seen in the City of Rosemead.

Please find detailed data in the attached document.

# AREAS OF IMPROVEMENT

Please be sure to follow us on Twitter (@SGVCOGCoyotes), Instagram (@SGVCOGCoyotes), and Facebook (@SGVCOGNeighborhoodCoyote)! We will be posting seasonally relevant coyote safety information on the first and third Thursday of every month.

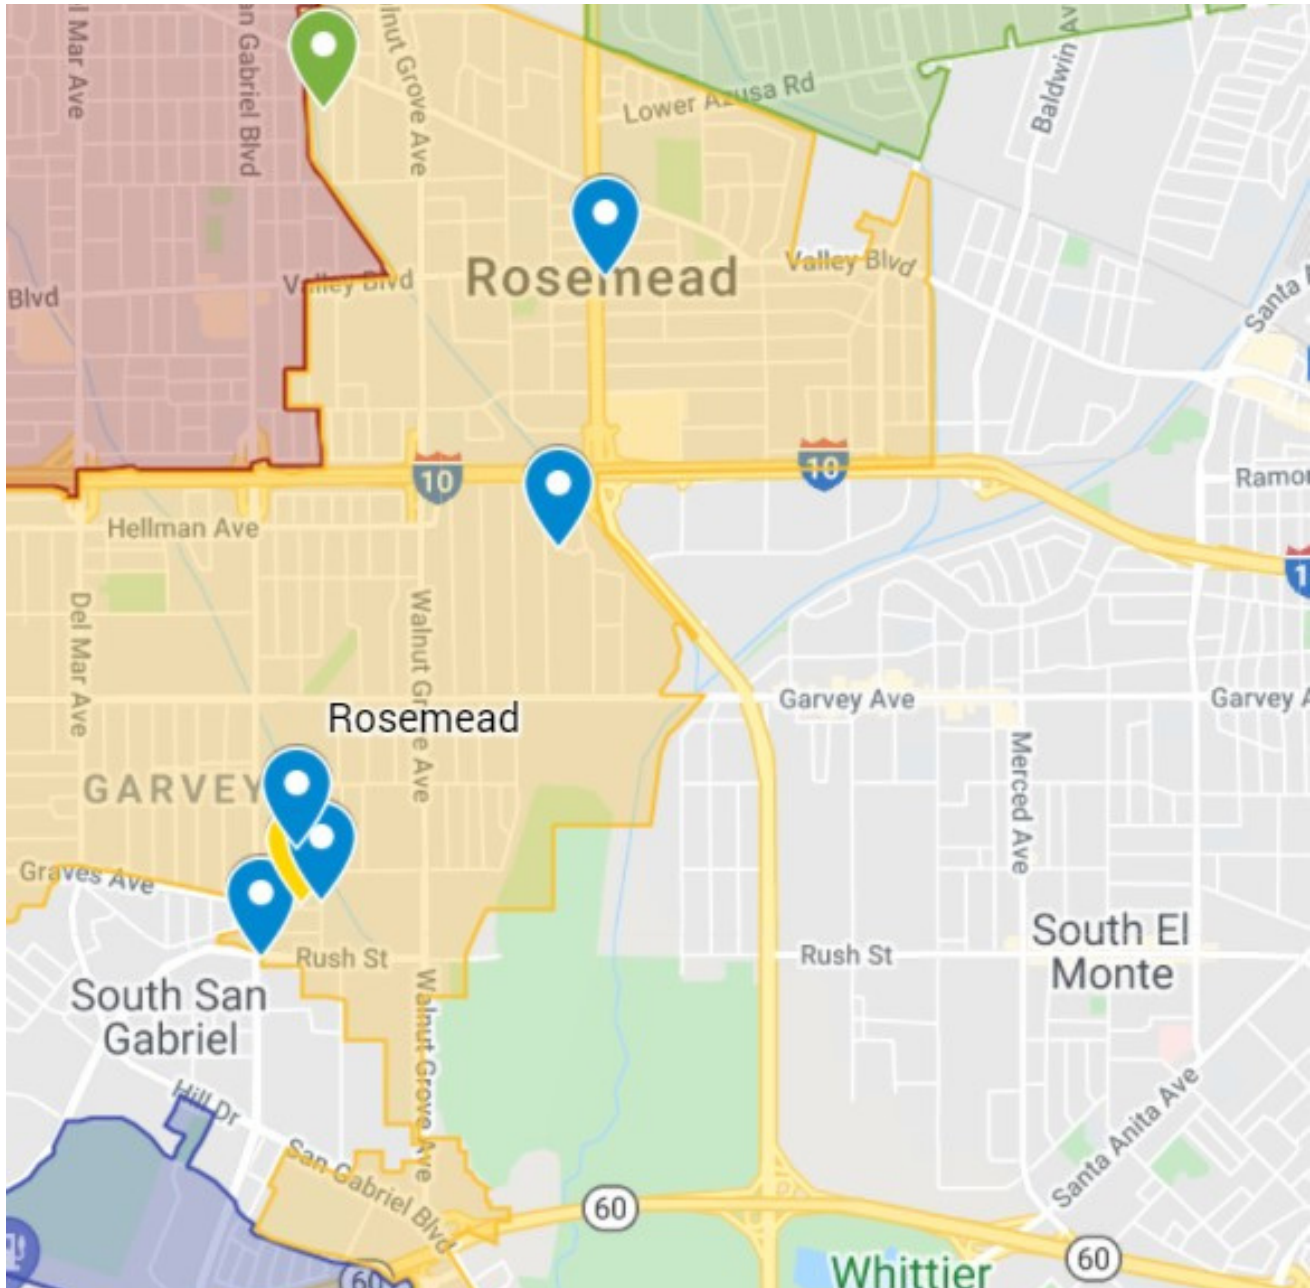

We are also placing special emphasis on community events! If you have any in mind or can connect us with homeowner's associations, Kiwanis Club, or any other organizations, we would greatly appreciate the assistance.

Please note that we have Coyote Safety Coloring Books and brochures available for residents in English, Spanish and Chinese. If you would like to distribute these to your community or display them in a public lobby, please contact us to coordinate.

Finally, don't forget to include information about the Neighborhood Coyote Program on your website, in social media posts, and in newsletters to ensure residents know how to report coyote sightings to us. The three main methods are:

- Online: [sgvcog.org/coyotereporting](http://sgvcog.org/coyotereporting)
- Coyote Hotline: (626) 278-8039
- Email: [coyotes@sgvcog.org](mailto:coyotes@sgvcog.org)

# REPORT MAP

## Key.

Blue- Response Level 1

Green- Response Level 2

Yellow - Response Level 3

**THANK YOU!**

**PARTICIPATING CITIES**

**Alhambra | Arcadia | Azusa | Covina  
Irwindale | Montebello | Rosemead  
San Gabriel | San Marino | Temple City**
